## Seven different time frame signals on one page Conservative Signals

Type in any Symbol of a Stock, ETF, or our 38 Forex Symbols and get results like this.

The trend arrows show the trend and when the arrow is selected it shows the Calendars.

The trend arrow in each timeframe gives you an analysis of the securities total strength.

The Profit Targets display the risk and the potential profit on each trade. The bright Red on the target indicates the target has been reached.

With these signals you can trade on any time frame.

By using the Conservative Scan, you can use lock in profits at every Target.

The screenshot displays the 'THE WIZARD ALL TIMEFRAMES' interface. At the top right, there are market indicators for 'THE WIZARD TREND RANKING™' and 'All Stocks Ranking'. Below this, a search bar contains the symbol 'eurnzd'. Two buttons, 'SHOW AGGRESSIVE' and 'SHOW TRENDS', are visible. The main content is a table with the following columns: Symbol, Trend (L/S), Last (change), Entry Date, Entry (direction), Stop (Risk), Profit Targets (Target1, Target2), Days Held, and Profit in Pips. The table lists seven timeframes for EUR/NZD, with profit targets highlighted in red when reached.
